GROSS MOTOR

1. Does your child hop up and down on either the right foot or the left foot at least one time without losing her balance or falling?

2. While standing, does your child throw a ball overhand in the direction of a person standing at least 6 feet away? To throw overhand, your child must raise his arm to shoulder height and throw the ball forward. (Dropping the ball or throwing the ball underhand should be scored as “not yet.”)

3. Does your child jump forward a distance of 20 inches from a standing position, starting with her feet together?

4. Does your child catch a large ball with both hands? (You should stand about 5 feet away and give your child two or three tries before you mark the answer.)

5. Without holding onto anything, does your child stand on one foot for at least 5 seconds without losing her balance and putting her foot down? (You may give your child two or three tries before you mark the answer.)

6. Does your child walk on his tiptoes for 15 feet (about the length of a large car)? (You may show him how to do this.)

GROSS MOTOR TOTAL

FINE MOTOR

1. Using the shapes below to look at, does your child copy at least three shapes onto a large piece of paper using a pencil, crayon, or pen, without tracing? (Your child’s drawings should look similar to the design of the shapes below, but they may be different in size.)

2. Does your child unbutton one or more buttons? Your child may use his own clothing or a doll’s clothing.

3. Does your child color mostly within the lines in a coloring book or within the lines of a 2-inch circle that you draw? (Your child should not go more than 1/4 inch outside the lines on most of the picture.)
**FINE MOTOR (continued)**

4. Ask your child to trace on the line below with a pencil. Does your child trace on the line without going off the line more than two times? (Mark “sometimes” if your child goes off the line three times.)

5. Ask your child to draw a picture of a person on a blank sheet of paper. You may ask your child, “Draw a picture of a girl or a boy.” If your child draws a person with head, body, arms, and legs, mark “yes.” If your child draws a person with only three parts (head, body, arms, or legs), mark “sometimes.” If your child draws a person with two or fewer parts (head, body, arms, or legs), mark “not yet.” Be sure to include the sheet of paper with your child’s drawing with this questionnaire.

6. Draw a line across a piece of paper. Using child-safe scissors, does your child cut the paper in half on a more or less straight line, making the blades go up and down? (Carefully watch your child’s use of scissors for safety reasons.)

3. **ASQ SCORE INTERPRETATION AND RECOMMENDATION FOR FOLLOW-UP:** You must consider total area scores, overall responses, and other considerations, such as opportunities to practice skills, to determine appropriate follow-up.

   - If the child’s total score is in the area, it is above the cutoff, and the child’s development appears to be on schedule.
   - If the child’s total score is in the area, it is close to the cutoff. Provide learning activities and monitor.
   - If the child’s total score is in the area, it is below the cutoff. Further assessment with a professional may be needed.

4. **FOLLOW-UP ACTION TAKEN:** Check all that apply.

   - Provide activities and rescreen in months.
   - Share results with primary health care provider.
   - Refer for (circle all that apply) hearing, vision, and/or behavioral screening.
   - Refer to primary health care provider or other community agency (specify reason):
   - Refer to early intervention/early childhood special education.
   - No further action taken at this time
   - Other (specify):

5. **OPTIONAL:** Transfer item responses (Y = YES, S = SOMETIMES, N = NOT YET, X = response missing).
